

EZ Oil Drain Options & Accessories

**Standard EZ Oil
Drain Valve**
Our most popular!

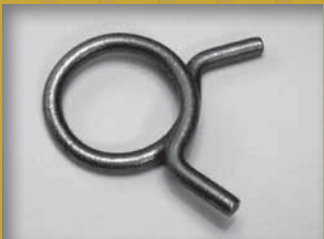

N-Series Valve
(Nipple type) accepts
hose, allows oil to be
drained away from
the engine

Round Adapter
Extends the length
of the valve, used
in recessed oil plug
type pans

L-Shaped Valves
The elbow joint,
which accepts hose,
is removable and
rotates 360°
(limited selection)

Safety Clip
For users under
extreme conditions,
it is recommended
that a hose clip be
used for extra
safety and security

EZ Oil Drain

ULTIMATE OIL CHANGE

patented
designed valves
combines the
convenience of
easy operation
with the security
of a safety lock

ADVANTANGES...

- ✓ One-touch operation
- ✓ Reduces oil changing time and expense
- ✓ Eliminates stripped threads
- ✓ No more contact with hot oil
- ✓ No messy hands or clothes

Available in
various sizes and
thread combinations

Lifetime guarantee on
workmanship and materials

Over 7 Million sold Worldwide!

Made of corrosion
resistant forged brass
and stainless
steel

COST EFFECTIVE!

Reduce the cost of fleet maintenance with **EZ Oil Drain**. Minimize oil changing time and eliminate mess. Draw samples for oil analysis with ease. Eliminates stripped threads forever.

SIMPLE INSTALLATION!

EZ Oil Drain permanently replaces the standard drain plug. Once in place, just lift the lever from its locked position and turn 90° to drain the oil. Return the lever and it locks closed, double sealed.

PROVEN QUALITY!

Guaranteed leakproof. Forged brass and stainless steel construction. Over 2,000,000 sold in USA alone! Approved by major motor vehicle manufacturers everywhere.

VERSATILE!

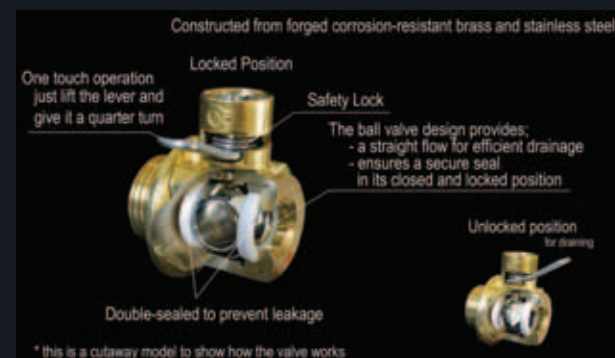

Sizes to fit all heavy duty trucks and buses. Fits cars, vans, light trucks, RV's, and industrial equipment.

The **N-Series** valve (nipple option) accepts a hose to allow draining of the oil away from the engine – perfect for marine engines, generators, pumps and compressors.
